Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisidictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Annie J. Mayfield under the direction of Henrietta Duvall, National Center for Social Statistics. Statistical assistance was provided by Robert Terrell.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables.

   --- indicates no data reported.
   *** indicates that the percent was not computed because the base was too small
   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Colorado and New Hampshire did not report recipients and payments by maintenance assistance status and basis of eligibility of recipients and are excluded from all applicable tables.

4. Massachusetts reported recipient data for the blind only.

5. In addition to Colorado, New Hampshire and Massachusetts; Nevada, Pennsylvania and Utah are excluded from Tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Minnesota, West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computation in Table 11.

6. Premium payments into the SSA system for aged recipients in Georgia, Maine and Vermont include payments for the disabled.

7. Data were estimated for New York and partially estimated for Michigan.

8. For Utah, all adult recipients i.e., aged 65 and over, blind and disabled are reported under money payment not authorized even though some may be SSI recipients. Similarly, Nevada reports all disabled recipients under money payments not authorized.

9. In California, there were 82,154 persons in AFDC families for whom it was unknown whether they were adults or children. These recipients and the $508,594 in vendor payments were distributed in the same proportion as the known amounts.

10. Minnesota included HMO recipients and premium amounts in the data in Tables 2-14.

11. North Carolina reported other Title XIX recipients under age 21 as AFDC children.

12. For Pennsylvania, other Title XIX recipients are not differentiated by age.

13. Vermont excluded $13,003 for family planning services from the data reported in Tables 2-4, and 6-14.

Annotations specific for Table 5 (Type of Service)

14. California data are incomplete. Four of 58 counties are not included.

15. For Connecticut, expenditures for other practitioners', clinic, laboratory and radiological, home health and family planning services are included in other care.

16. Expenditures for Kentucky include reimbursable cost adjustments of $108,657 to hospitals and $182,011 for nursing homes. Similarly, for Michigan general hospital expenditures include an advance payment of $103,000. The total vendor payments for Michigan exclude accounting cost adjustment of $32,994. The Virginia data includes $1,002,412 in cost settlements and retroactive adjustments. Hospital costs for New Mexico include $4,794 in retroactive adjustments.

17. For North Carolina, Physicians' services include optometrists.

18. For Montana, data include $14,829 which is not distributed by type of service.

19. South Carolina expenditures for skilled nursing facility services include $20,345 for mental institutions.

20. For Virginia, family planning expenditures are included in other types of services.

Annotations specific for Screening Tables 15-20

21. States omitted from tables did not report on screening services for September 1974.

22. California reported 70,210 individuals receiving comprehensive physical examinations in addition to the screening data.

23. For Georgia, EPSDT screening data related to specified conditions are excluded from the tabulations.

24. Screening payments for Georgia, Idaho, Illinois, New York, Pennsylvania and Texas are not reported separately for ages under 6 and 6-20.

25. In Indiana, the 1,801 persons screened during the month with referrable conditions uncovered were not referred for treatment because they were either currently receiving treatment for the condition or parent did not desire treatment. Similarly, the 7,358 persons not referred in Texas received immediate remedial or prophylactic care by the person performing the screening.

26. Data for North Dakota, Ohio, Vermont and Virginia are largely estimated, provisional and/or incomplete.

Annotations specific for Screening Tables 15-20--Continued

27. For Rhode Island, data include 77 newborns for whom payments are reflected in physicians' or hospital services.

28. Payments for screening services were not reported by the District of Columbia, Maryland, Michigan, Puerto Rico, and the Virgin Islands.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - September 1974

A total of 979.4 million dollars was paid out of Title XIX funds in September 1974. An estimated 7.8 1/ million persons had medical vendor payments totalling 952 million dollars made in their behalf. An additional $2 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 298,919 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (53.3 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 35 percent of recipients. About 26 percent of the recipients were eligible on the basis of age 65 and over. Seventy-four percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, ninety percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

About forty percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-one percent were on behalf of members of AFDC families. The proportion of payments (22.3 percent) on behalf of permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in AFDC families. Among AFDC recipients, eighty-four percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, seventy-four percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth (29.6 percent) of the total vendor payments. It should be noted that a large amount of these payments is probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Services

About seventy percent of the medical vendor payments were made for inpatient services, i.e., hospitals (29.8%), skilled nursing facilities

(21.6%), and intermediate care facilities (18.8%). Among other services, physicians' services and prescribed drugs represented 9.7 and 6.4 percent of total payments, respectively.

Screening Services

Fifty-one States reported 138,367 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Fifty-eight percent of the children screened were six years of age and older. Fifty percent of children screened had referrable conditions uncovered and seventy-one percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes estimates for Colorado, Massachusetts, and New Hampshire which were extrapolated from previous reports.

Note: Estimates are based on the average monthly amounts paid per recipient by State.

TABLE 1 TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY HEW REGION AND STATE (SEPTEMBER, 1974)

Quarterly Highlights
July-September 1974

A total of $2,822,234,000 was paid out of Title XIX funds during the quarter ended September 30, 1974. A decrease of 4.3 percent from the previous quarter. Vendor payments totalled $2,731,711,000, and additional $27,571,608 represented premium payments to health maintenance organizations for an average monthly number of 290,870 enrollees.

About $1.9 billion or 70 percent of the total vendor payments were made to inpatient facilities: general hospitals ($746,711,000); skilled nursing facilities ($556,259,000); intermediate care facilities ($497,425,000); mental hospitals ($105,788,000). In addition $277 million and $182 million were expended for physicians' services and prescribed drugs, respectively.

The average monthly number of recipients for whom vendor payments were made during the quarter was 7,827,000, a national decrease of 447,000 1/ (5.4 percent) from the previous quarter. The drop in number of recipients is not uncommon during the first quarter of a fiscal year. Previous data have shown a downward trend during this period. Of the total number of recipients receiving medical services, the largest decrease was reflected in other title XIX recipients. For these recipients, the number declined from 655,000 to 577,000 (11.9 percent); for the blind, the number declined from 52,000 to 48,000 (7.7 percent); for aid to families with dependent children, the number declined from 4,463,000 to 4,178,000 (6.4 percent); for the aged recipients, the number declined from 2,031,000 to 1,978,000 (2.6 percent); and for the permanently and totally disabled, the number declined from 1,072,000 to 1,046,000 (2.4 percent).
Thirty-four States reported fewer recipients during the current quarter than the previous quarter (April-June). States reporting the largest decrease in the number of recipients were California, Puerto Rico, New York, Michigan, Virginia, Kansas, Washington, Maine, Kentucky, Oregon, New Jersey, Texas, Indiana, Oklahoma, New Mexico and Missouri.

The national average monthly medical vendor payments dropped from $935.5 million 1/ to $910.4 million, a monthly decrease of $25.1 million (0.3 percent) from the previous quarter. Although there was a decrease in the average monthly number of recipients for the aged and other title XIX, the average monthly vendor payments for these recipients increased from $347.5 million to $353.4 million (1.7 percent) and from $53.1 million to $53.3 million (0.4 percent), respectively. The average monthly medical vendor payments made on behalf of the permanently and totally disabled declined from $217.4 million to $204.9 million (5.7 percent); for aid to families with dependent children from $310.1 million to $292.0 million (5.8 percent); and for the blind from $7.4 million to $6.7 million (9.5 percent).

Seventy-four percent of the average monthly number of recipients were authorized to receive maintenance assistance in the form of money payments, however only 52 percent of medical payments were on behalf of money payment recipients.

A total of 402,924 children was reported as receiving screening services under the Early and Periodic Screening Diagnosis and Treatment Program (EPSDT) during the quarter. Payments for screening services totalled $6,033,334.

1/ Excludes 91,000 recipients age 21-64 and expenditures of $17,298,000 for those recipients in California who were previously erroneously classified as title XIX recipients.
